The School of Design in the Politecnico di Milano is today the largest international university for the training of product, communication, interior and fashion designers, both by number of students and of teaching staff. It is active in the recently built Milan campus.

The following figures give some idea of its extent: approx. 5000 students, over 450 teaching staff and a further 400 or so research and teaching assistants working in various capacities.

Degree programs are organized at two levels:
3 year first level degree (Bachelor or B.Sc) and a further 2 year second level degree “Laurea Magistrale” (Master or M.Sc).

For “**QS Rankin by subject**” the School of Design is

1st in Italy

3rd in Europe

6th in the world.

DEAN

prof.ssa Luisa Collina

VICE-DEAN

prof. Francesco Zurlo

The Dean represents the School inside and outside the Politecnico, plays the role of guarantor of the didactic activity and oversees quality of the teaching provided, promotes and coordinates the activities of the School through the School Council. It makes use of the collaboration of the Vice-dean.

STUDENTS REPRESENTATIVES

The role of the Students and their Representatives

Students have the right to participate in the life and governance of the University, through their Representatives they are asked to express their opinion on the University management bodies.

Students Representatives are elected directly by you.

The elections are held every 2 years and are a real opportunity to make students voices heard

Students Representatives are the simplest and most effective means of getting students' proposals and requests on basic subjects, such as teaching and services for students, to the appropriate locations.

Student representatives are the simplest and most effective way to get student proposals and requests on basic topics, such as teaching and student services, in appropriate locations.

LEZIONE ZERO

QUESTIONNAIRE FOR ASSESSMENT OF THE DIDACTIC ACTIVITY

QUESTIONNAIRE FOR ASSESSMENT OF THE DIDACTIC ACTIVITY

Students' opinions on the teachings

The survey of student's opinions is one of the main tools for monitoring the Quality of University Didactics:

An ANONYMOUS but MANDATORY online questionnaire for enrollment in exams, for each course that the student is enrolled in.

By completing the questionnaire, students actively participate in the process of growth and consolidation.

The questions concern:

- teaching
- the teachers
- the supplementary teaching activities
- the infrastructures

Precisely because weight is given to opinions, students are invited to:

- **Pay particular attention to the compilation,**
- **Give informed and consistent answers to the questions,**
- **Provide proactive and constructive comments in free spaces.**

QUESTIONNAIRE FOR GRADUATING STUDENTS

Overall assessment questionnaire of the didactic path to be completed together with the enrollment to the exam session, the level of satisfaction for the course is asked.

If you are about to complete your studies, we invite you to complete the graduation questionnaire: an online questionnaire in which you can enter information about your skills and professional aspirations and express an opinion on the study path you have just completed and on the services offered by the University.

The completion of the graduation questionnaire is compulsory and the student secretariat will verify that it has been completed in the phase of checking the degree application.

LEZIONE ZERO

**FINAL EXAMINATION:
TYPOLOGY, CHOICE
OF THE RELATOR AND
FINAL ASSESSMENT**

FINAL EXAMINATION: TYPOLOGY, CHOICE OF THE RELATOR AND FINAL ASSESSMENT

Final exam consists of discussing a thesis under the guidance of a supervisor in front of one of the operative commissions.

The Thesys is individual

Further develops the subject of

- the Final Synthesis Design Studio
- different subject

In case of difficulty in finding a supervisor students can:

- contact programme coordinator
- open a trouble ticket from the school site

After the registration for the degree exam session the supervisor validates the Thesys Preparation.

FINAL EXAMINATION: TYPOLOGY, CHOICE OF THE RELATOR AND FINAL ASSESSMENT

The thesis can be a research thesis, or the consolidation thesis:

- 1. RESEARCH THESIS:** the development of a theoretical, planning, experimental thesis, or innovative research;
 - it requires a minimum completion time of 6 months;
 - between -1 and 8 points.
- 2. CONSOLIDATION THESIS:** the development of a thesis that consolidates and perfects knowledge that has already been acquired;
 - it requires a minimum of 2 months for its elaboration;
 - between -1 and 4 points.

During the thesis, the supervisor can suggest to convert the thesis into research thesis or consolidation thesis , given the attitude demonstrated and the related interest and emerging time requirements.

The “with honours” qualification only if the average, before rounding, is ≥ 111 points.

PASSION IN ACTION **BEYOND THE STUDY PLAN FOR EDUCATION** **THERE IS ALSO PASSION**

"Passion in action" is the catalog of educational activities with free participation that the Politecnico offers its students. It fosters in them the development of transversal skills, soft and social skills, and to encourage / facilitate a personalized enrichment of their personal, cultural and professional baggage. Those who wish can take this opportunity and choose which activities to attend, ranging between the different subjects according to their interests and personal attitudes. Students participating in "Passion in action" can enroll in all the activities in the catalog, without any restriction of thematic proximity with respect to the study path to which they are enrolled (subject to any prerequisites for access to individual initiatives). The recognition of the acquired skills takes place through a mention on the Diploma Supplement

DESIGN EXPLORER

"Design Explorer" is a kind of passport that tells about travels and experiences undertaken by individual students in different "territories" of design, giving value to their passions and attitudes, with participation in initiatives and events related to the world of design.

COMMUNICATION AND TOOLS

BEEP CHANNEL - STUDY COURSES AND STUDENT REPRESENTATIVES

The BEEP channel is used by student representatives. Students can participate in the forum, with comments and posts.

The aim is on the one hand to increase the visibility of the Representatives towards the students and on the other hand to create a greater link between students, through their Representatives, and Study course councils.
